

CSBE/SCGAB Letters Patent

1. (a) The name of this Society is:

The Canadian Society for Bioengineering/La Société Canadienne de Génie Agroalimentaire et de Bioingénierie

(b) The Society shall be governed by these Letters Patent and by the Bylaws in harmony herewith.

2. The objects of the Society are:

- To advance the application of engineering principles and practices for the betterment of agriculture and the applied sciences.
- To advance the standards of bioengineering and agricultural engineering in the fields of research, education and practical application.
- To encourage professional improvement and foster bioengineering and agricultural engineering education.

3. The objects of the Society shall be accomplished by:

- Encouraging research, experimentation, tests, and other original work in bioengineering and agricultural engineering;
- Encouraging the preparation of original papers on bioengineering and agricultural engineering topics;
- Holding meetings for the presentation and discussion of original papers, and the discussion of the application of engineering techniques and practices associated with agriculture and other applied sciences;
- Publishing papers and reports and disseminating knowledge and experience of value to those engaged in bioengineering and agricultural engineering work;
- Participating in the development and promotion of standards, codes, formulas, and recommended practices relating to bioengineering and agricultural engineering;
- Maintaining high technical and cultural standards for admission to the Society;
- Co-operating with educational institutions in the maintenance of high standards of education for bioengineering and agricultural engineering;
- Encouraging among students of bioengineering, agricultural engineering and other engineering disciplines the study of such subjects as will equip them with a proper cultural and technical foundation for achieving the optimum of enjoyment for themselves and usefulness to society.
