

Call for 2025 EIC Awards Nominations

Office of the Executive Director

August 2024

The Engineering Institute of Canada (EIC) is pleased to announce that it is currently accepting nominations for the 2025 senior EIC awards and fellowship inductees in a manner reflecting the broad diversity of the Canadian engineering community in terms of gender and ethnicity as well as from the public (government, academia) and private sectors (industry, NGOs).

The deadline for nominations is, without exception, end of day (EST midnight) **15 November 2024**. EIC Senior Awards and EIC Fellowships are awarded to members of EIC constituent societies in recognition of excellence in engineering and services to the profession and to society:

SIR JOHN KENNEDY MEDAL

For outstanding services rendered to the engineering profession, or of noteworthy contributions to the science of engineering, or to the benefit of the Institute

JULIAN C. SMITH MEDAL

For achievement in the development of Canada

K.Y. LO MEDAL

For significant engineering contributions at the international level

JOHN B. STIRLING MEDAL

For leadership and distinguished service at the national level within the Institute and/or its Constituent Societies

CANADIAN PACIFIC RAILWAY ENGINEERING MEDAL

For many years of leadership and service by members of the Societies within the Institute at the regional, branch or section levels

EIC FELLOWSHIPS

For excellence in engineering and services to the profession and to society

The EIC President will happily present the selected awards and fellowships at a Gala ceremony to be held at the HILTON LAC-LEAMY Hotel in Gatineau (QC) on **5 April 2025**. As per past events, we hope many friends and colleagues will be able to join us to help recognise and applaud all the outstanding 2025 award winners.

The **nomination rules and form** can be downloaded from the Honours and Awards page of EIC's website (http://eic-ici.ca/honours_awards/nomination/).

About the EIC (<http://eic-ici.ca/>) ...

Founded by Royal Charter in Montreal in 1887 as the Canadian Society of Civil Engineers with the mandate to disseminate technical information and experience, the society was renamed by Parliament in April 1918 as the Engineering Institute of Canada. The EIC is now a federation of fourteen technical societies representing the main engineering disciplines and whose mandates remain the dissemination of technical knowledge and experience to help maintain high standards for engineering practice, and the recognition of engineering excellence in Canada.
